## Bethel Christian Academy's Principal's Perspective

We had an all school worship chapel this morning, and it was such a blessing to me. To see student after student worshiping God, to hear them singing Waymaker with all their hearts, was incredible. If you were fortunate enough to be there live, I am sure you would agree. Unfortunately, the voices are barely audible through the YouTube stream. Maybe someone recorded it and we will have the chance to share it on social media at some point, but for now you'll have to take my word for it if you weren't there! It's times like that that remind me why I do what I do, and it is the same for our teachers and staff. Hearing testimonies of our students asking Jesus into their hearts, or being baptized, or just growing closer to God (to borrow a super cheesy phrase) puts the wind in our sails! It gets us excited about what God is doing in the lives of our students and our collective BCA family.

I am thankful that God puts moments like today's chapel into otherwise crazy days. He's good like that. The song we ended with says, "And all my life You have been faithful. And all my life You have been so, so good. With every breath that I am able. I will sing of the goodness of God." I concluded the chapel service by saying that this is one of the truest songs ever written. I am so thankful that we have a God that will never leave us and never forsake us, who loves us more than we deserve! I pray that you know God that way, and that he will continue to show himself faithful and good all your life!

**Thanks and God Bless!**

Reminder: There is a high correlation between attendance and success. Students who are habitually absent tend to struggle more than those who are not. Please do your best to have your child in school on time (**by 8:25**) EVERY DAY! Coming late disrupts everyone, and trying to keep up with missing work is difficult for students and teachers. Missing Fridays is extremely difficult because often spelling and Bible tests are on Fridays, which means students are making up last week's tests while working on next week's stuff, which is difficult as well.
